Welcome to **Europass Teacher Academy**

+ **Trained over 20.000 teachers in the last 10 years**

A team of teachers with great experience, motivation and up-to-date knowledge. In 2019, over 4.300 teachers attended our courses from 61 different nationalities.

+ **Over 25 years of experience**

Accreditation by the Tuscany Regional Government for the design and provision of training activities and courses. Certified Quality Management System UNI EN ISO 2015:9001

+ **Paving the way in educational change**

Education is constantly evolving and we work hard to be at the forefront of the change. This means we stay up to date, follow new trends and offer courses suited to the world we live in. Update your CV alongside our amazing team.

+ **Many different topics, 19 locations and 9 different countries**

We have a large selection of courses available, the largest selection in the KA1 teacher training catalogue of the European Union.

+ **Helpful, flexible, trustworthy**

We guide our participants through every step of the project: from the grant application to the Erasmus+ final documents. We are proud to say that

99% of participants of our courses reported they are satisfied with our work.

+ **Certificate of attendance and small groups**

We only confirm each course session when we have enough participants. When you receive your Booking Confirmation you can be 100% sure that your course will run. No bad surprises and no wasted plane tickets.

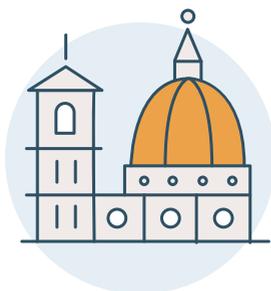

+ **Courses on demand**

If you wrote an Erasmus+ project on a specific topic, Europass can design a course exclusively for you, according to your project goals and objectives.

Our courses

At Europass, we provide both **one week** and **two weeks** courses, all year round. Classes are held daily, Monday to Saturday.

Our courses are inspired by the **European Union's Erasmus+ KA1** program to provide teachers with an opportunity to travel abroad, receive training in the most innovative strategies for 21st century education, and exchange professional experiences and best practices with international colleagues – all while visiting one of Europe's most spectacular cities:

Arts and Wellbeing

Classroom management

Creativity and Soft skills

ICT

Languages and CLIL

School innovation

Teaching can be a stressful job, requiring a great deal of patience, empathy, planning and organization.

Our courses in Arts and Wellbeing are designed to help teachers reduce their stress, stay motivated, and maintain a healthy work-life balance.

Learn how to use drama and acting in the classroom to inspire self-expression and play. Explore the intersections between art, psychology, and therapy. Or practice strategies for stress management including mindfulness, meditation, and yoga.

One-week courses

- + Drama techniques: developing self-expression, communication and social skills for all students
- + Enough theory, let's play! Fun games for Developing the whole child
- + Explore your voice: a journey into sound
- + Life coaching for teachers: happy teachers for better students
- + Mindfulness for teachers: a hands-on approach
- + Stress management and recognition: key strategies For teachers
- + Active art: understanding and enjoying art in The classroom and beyond
- + Art as therapy: self-expression and special needs In art education
- + From STEM to STEAM education: a new learning approach
- + Introducing yoga in primary schools

- + Yoga and meditation for educators: be a great teacher, be your best self
- + Playtime and downtime for teachers and students: the psychology of time to feel good and do good!
- + Discovering Renaissance art in Florence
- + Traditional arts and ICT art tools for teaching your subjects and promoting life skills
- + Experimental Barcelona: experiential travel for education, creative tourism and wellbeing
- + Rediscover your resilience
- + Experiential learning in Florence: sustainable tourism and travel psychology in practice

Two-week courses

- + Activate your artistic sensitivity: art psychology and video making
- + Drama in education & american acting technique for teachers

Classroom management

Do you ever struggle to hold students' attention in class? Are your students easily distracted or at times disruptive to their peers?

Teaching can be as exciting and fulfilling as it can be exhausting! Our courses in Classroom Management are designed to help you navigate behavioral issues, manage conflict, and engage students in active learning – in order to create a healthier classroom environment.

With a deeper understanding of 21st-century education tools, you will find renewed enthusiasm for teaching – and your students for learning. Practice strategies for the inclusion of students with special needs, to overstep language barriers and to prevent conflicts before they happen.

One-week courses

- + Flipped classroom
- + 21st Century skills for teachers and students
- + Classroom management solutions for teachers: new methodologies, effective motivation, cooperation and evaluation strategies
- + Conflict management, emotional intelligence and bullying prevention
- + ICT as a tool for a student-centered classroom
- + Embracing diversity, preventing bullying and violence
Facing diversity: intercultural classroom management
- + Managing a diverse classroom: facing upcoming challenges
- + Student-centered classroom: teachers as promoters of active learning!
- + Project-Based Learning in the classroom: setup, integration and reflection
- + Understanding and supporting students with ASD and ADHD

Classroom management

- + Designing inclusive learning environments (ILE) to support all students (DILEs)
- + Successful strategies for teaching students with special needs in every classroom
- + “We are all special”: inclusion and support to special needs students in and out of the classroom
- + Arts for the inclusion of migrants, refugees, and disadvantaged populations
- + Use ICT to integrate migrant students in your classroom
- + Preventing and intervening in (cyber)bullying
- + Game-based learning and gamification in the classroom
- + Experience italy, improve your teaching: creative activity design for inspiring lessons
- + High-quality Project-Based Learning: projects in the making for PBL-doers
- + Mathematical inquiry and hands-on manipulatives
- + Understanding and teaching gender equality

Two-week courses

- + 21st Century teaching: competence-based education, soft-skills and creativity
- + Behavior and conflicts: new methodologies, motivation and cooperation strategies
- + Classroom management and audio-visual projects: practicing new teaching skills
- + Teaching strategies, conflict management and emotional literacy

Creativity and Soft skills

Today's teachers are held to high standards – experts in their subject, they must also **think critically, communicate effectively, and collaborate readily.**

But practicing these skills while simultaneously managing a classroom of students with diverse needs is not always easy. Europass is here to help!

Our Creativity and Soft Skills courses focus on strengthening the soft skills you use in class every day: creativity, critical thinking, communication, and collaboration. Learn how to effectively design activities in order to transfer these skills to your students, to stimulate their interest in learning and in turn promote better learning outcomes.

One-week courses

- + The 4Cs: creativity, critical thinking, communication and collaboration in schools
- + Effective teaching through public speaking and storytelling
- + Intelligent assessment and evaluation
- + Teach with a twist! Motivate your students with creative teaching strategies
- + Unleash your creativity!
- + Soft skills for strong teachers
- + Discussion tools for teaching and learning
- + Integrating creativity and innovation into teaching
- + Personality in class: color your class with the personality-based approach
- + A satisfying school experience: strategies and skills for teachers

- + Choice, competence and creative-thinking in the primary classroom
- + Social and emotional learning for teachers: understand, plan, implement
- + Comedy, humor and public speaking for teachers and communicators
- + Finnish approach to pupil's wellbeing: how to bring more activity, fun and joy to classroom
- + Holistic approaches to early years education
- + Storytelling for education and learning
- + Learning through collaboration and cooperation
- + Facing diversity: intercultural classroom management

Two-week courses

- + Creativity, innovation, motivation and new Teaching methodologies
- + Positive mindset and well-being in schools

New technologies and digital media are changing our world – and the way we teach.

Our courses on Information and Communication Technologies (ICT) train today's teachers in the skills necessary for 21st century classrooms and online learning.

Smartphones and tablets have great educational promise, once you're familiar with a few tricks and programs. Discover the world of e-learning with an overview of relevant software (e.g., Moodle, Microsoft, apps and web solutions). Communicate with your students using photo, video, and audio platforms, and explore the language of social media.

One-week courses

- + Digital game-based learning & augmented reality for schools
- + Ict in the classroom: innovative tools to facilitate students learning, collaboration and creativity
- + Digital media: the classroom of the future
- + Microsoft for education: powerful tools to create, share and inspire
- + Photo and video making in your classroom: the educational power of multimedia
- + Social media in the classroom
- + Tablets and smartphones: using mobile devices as educational tools
- + The best social media and web solutions for your classroom
- + There is an app for that! Exploring the best apps for teaching and student learning
- + Web solutions for the classroom

- + Build your app, teach your students how to build their apps!
- + Introduction to coding and robotics with Arduino
- + Our school radio! Podcasts and new media as an educational tool
- + Discovering moodle LMS
- + E-learning and instructional design
- + Discover florence with learningapps – innovative teaching methods in practice
- + Finnish-inspired edtech tools for remote or flipped classrooms
- + Digital media literacy: essential skills for the digital age

Two-week courses

- + Audiovisuals and social media for the classroom
- + Build your own app and robotics with Arduino
- + Digital education
- + Digital platforms: using apps and e-learning solutions
- + Educational apps and audiovisuals in the classroom
- + How to use tablets, educational apps and social media in your classroom
- + Social media and web solutions for your classroom
