### Course description

The digital transformation of the education sector presents both opportunities and challenges for educators worldwide. Adapting to this shift requires a combination of skill development and a keen understanding of the available technological resources.

In this course, participants will learn how to seamlessly integrate modern technologies into their teaching methods.

The main focus of the training will be to enhance classroom management, optimize engagement through digital tools, and leverage platforms for improved student results.

The course encompasses designing impactful presentations, videos, and lesson plans while offering hands-on experiences in creating digital tests, and quizzes, and gathering feedback.

Participants will not only gain proficiency in classroom management systems but will also learn to effectively utilize Google Classroom and other platforms.

By the end of the course, participants will be able to ensure both efficiency in teaching and an enriching learning experience for students.
